

**Engineering Statement****Introduction**

Educational Media Foundation requests a community of license change for WJKL from Elgin, Illinois to Glendale Heights, Illinois.

This statement is included to show that the proposed community of license change to the current licensed station of WJKL Glendale Heights, Illinois, will not leave any area underserved, according to the guidelines of 307(b).

**Discussion**

In the instructions for the new Form 301, the FCC describes several points that are required for a showing that the proposed community of license change would result in a preferential arrangement of allotments under section 307(b). Those requirements have been divided into the two sections below:

**1. Minimum Requirements**

The commission has requested that any 307(b) showing contain the following minimum information:

- The number of stations currently licensed to the proposed community of Glendale Heights is zero (0).
- The number of stations that provide protected service to the proposed community is approximately 26.
- The population of the proposed community is 31,765, according to the 2000 U.S. Census data.
- The proposed city is a licensable community. The city of Glendale Heights was incorporated in 1960 and has a Police Department, Public Library, Parks and Recreation District, and an Adventist GlenOaks Hospital. For further information, please visit <http://www.glendaleheights.org/GenInfo/organizations2.html>

**2. Other Relevant Information**

The proposed community of license change request does not include a transmitter move and WJKL will continue to function as specified in its current license (BLH-19990730KC).

Since the transmitter properties will not change, the entire area within the contour of WJKL will remain the same thus no underserved area will be created or currently served area affected.

Respectfully submitted,
